KYLE MACFADZEAN

DIRECTOR OF PHOTOGRAPHY / kylemacfadzean.com

Kyle began his career in Post Production, working as an Editor before moving into Cinematography. He has since worked on Music Promos, Commercials, Documentaries and Fashion Films, utilising his background as a colourist to enhance each project's cinematic style and colour.

Kyle regularly collaborates with Mr Porter on their fashion films, travelling the World to capture unusual stories set against stunning landscapes. His recent film for Mr Porter on how Japanese denim is made was nominated for a 2020 Webby Award for Best Fashion & Beauty video.

Kyle is an adaptable Director of Photography who enjoys shooting in far flung locations, with recent projects filmed in deep snow, and on isolated mountain ranges. He is as much at home in the studio as he is in remote locations, able to create visually stunning work no matter the location.
